To Whom It May Concern,

On behalf of the Housing Assistance Corporation (HAC), I am writing in support of the extension of the Oklawaha Greenway in Henderson County from Jackson Park to Blue Ridge Community College. The mission of HAC is to provide safe and affordable housing. We believe that individuals in our programs benefit from having a healthier and positive lifestyle that enhances their personal growth. By extending the Oklawaha Greenway, the community would also be able to benefit from a more positive lifestyle.

The Oklawaha Greenway is important to HAC and the public. The Housing Assistance Corporation's newest development is adjacent to the current portion of the greenway. An extension of the greenway would allow our clients and other citizens the ability to walk, run, and bike along a seamless trail that runs through our beautiful county. Greenways not only offer recreation, exercise, and a healthy environment, but they are corridors that connect people and places together. The expansion of the Oklawaha Greenway would connect our citizens and enhance our community.

HAC is in full support of efforts to achieve the plan to extend the Oklawaha Greenway from Jackson Park to Blue Ridge Community College. Our organization is excited about the prospect of extending the trail so that it may continue to benefit not only our clients, but all those living and visiting the beautiful place that we call home.

Sincerely,

Sarah Grymes

Executive Director
