TO WHOM IT MAY CONCERN:

Aging Projects, Inc. is delighted to write this letter in support of the Oklawaha Greenway extension. We are a nonprofit corporation dedicated to providing access to information and resources to allow people to remain in their own homes as they age or become disabled. We feel most people want this and it is the most cost effective for everyone if we meet this need.

The greenway provides a mostly flat, beautiful area that encourages walking for our older citizens. The increased activity is beneficial to seniors' health. Good health and the ability to remain at home as we age is what we are all about!

The Aging Projects, Inc. Board of Directors is in complete agreement with the Friends of Oklawaha seeking grants and other funding to extend the Oklawaha Greenway.

Sincerely,

A handwritten signature in black ink, appearing to read 'Joanne Helppie'.

Joanne Helppie, M.D., Chairperson

A handwritten signature in purple ink, appearing to read 'James H. Kelly'.

James H. Kelly, President & CEO
